

Northeastern University
NULab for Texts, Maps, and Networks

Speed Data-ing

Monday, February 24th

1:30–3PM

440 Curry Student Center

The NULab is hosting Speed Data-ing, an event that brings together potential collaborators to discuss a range of digital humanities research questions, methodologies, and data sets. Come and see what other Northeastern researchers are up to and discover opportunities to grow your own research!

- **Sarah Connell**, Women Writers Project, “Modeling Early Women’s Intertextual Networks”
- **Jeff Sternberg**, Sociology, “Examining the Components of City-Image with Flickr and Computer Vision”
- **Tim Fraser**, Political Science, “Using Two-Mode Network Toolkits with Membership Lists”
- **Grace Poudrier**, Sociology, “If you could completely remove one company from the world, which one would it be? - A Computational Analysis of 18.5k Reddit Comments”
- **Avery Blankenship**, English, “The ECDA Barbados Runaways Project”

Pizza and snacks will be served. This event is free and open to the public, but if you are not a member of the Northeastern community, please email Sarah Connell (sa.connell@northeastern.edu) to RSVP.

For more information about this event, visit the NULab website at:
