# WORKSHOP
WITH PROFESSOR ALEX GIL

SENIOR LECTURER II & ASSOCIATE RESEARCH FACULTY OF DIGITAL HUMANITIES @ YALE UNIVERSITY

THE CURE FOR THE CHATGPT BLUES

In this workshop, we will briefly look at the history of machines that write from antiquity until the present in order to place Chat GPT in historical context. We will also discuss what the currently technology actually is, what it can and cannot do, and the ethical challenges they pose. Finally, we will conclude with some discussion of possible creative exercises that we can incorporate in the classroom to prepare students for a future in which competent digital writing assistants will most likely be pervasive.
