NULab for Texts, Maps, and Networks

Annual Conference
Generative AI: Creative Potentials and Ethical Responsibilities
April 21, 9:30am–3:30pm (Eastern)
Located in Raytheon Ampitheater and Online

The sixth annual NULab spring conference will feature talks by Northeastern faculty, staff, and students about their work in digital humanities and computational social science. This year's theme will be "Generative AI: Creative Potentials and Ethical Responsibilities" and will include a diverse set of interdisciplinary presentations on topics including creative uses and ethics of generative AI.

Conference Schedule (all times in Eastern)
- **9:30am:** Light breakfast
- **9:45am:** Welcome by Dan Cohen, Dean of Libraries; Vice Provost for Information Collaboration; Professor of History
- **10-11:30am:** Panel: "Making, Creating, and Experimenting with AI," featuring Lawrence Evalyn (English); Kenna Cheverie (English); Nick Beauchamp (Political Science); and Malik Haddad (Data and Computer Science, NCH London)
- **11:30am-12:30pm:** Lunch
- **12:30-1:45pm:** Keynote address by Dr. Lara Martin, "Digital Bards: How *Dungeons & Dragons* will Make for Better AI"
- **2-3:30pm:** Panel: "Exploring the Ethical Contours of AI," featuring Felix Muzny (Khoury College of Computer Sciences); Cansu Canca (Institute for Experiential AI); Silvio Amir (Khoury College of Computer Sciences); and Dan Jackson, Jules Rochielle Sievert, and Miso Kim (NuLawLab)

This event will be hybrid: join us in Raytheon Amphitheater on the Northeastern Boston campus, or by Zoom.

Keynote Speaker:
Dr. Lara J. Martin

Dr. Lara J. Martin is a CIFellow Postdoc at the University of Pennsylvania who works in the field of Human-Centered Artificial Intelligence with a focus on natural language applications. Dr. Martin has worked in the areas of automated story generation, speech processing, and affective computing.

RSVP for this event here.
